I would like to write to him. Please write without waiting for me to do so.
Geo. was well & busy preparing for examinations & prize declamations. He was chosen one of five from the Fresh. class. Prof. Panaretoff is staying at Mrs. Baker's who kindly asked him here to try change & more quiet than he can get here. To day for the first time he went down & sat in the garden. He sits up there or four hours a day now. The Bakers are living in the Boston house.

your debt and your note gave me great pleasure. Two things combined to delay my answer - one, that I have had several extra things to occupy me the other that as there is no post from here to Tirnova any letter w'd have to wait for some opportunity. Now I feel I must write send by some one of the students. Prof. Panaretoff has been very sick with gastric fever for several days.
