Feb 2^d 1878

My dear Mr. Slavicoff.

I am very glad you heard from your Father before the vacation so that you could rest with a comparatively light heart and so get the benefit of the rest you needed.

We often speak of each one of those in the College to whom we have become attached during several years of constant intercourse, and no day passes that we do not pray for you all.

You may well imagine we look with eagerness at the column, in the morning & evening papers, headed "Eastern News" "From the Seat of War" etc. These last few days I have dreaded to look at it lest I should see "Mob law in Constantinople".
