week so we are glad for his sake that we came. it seems to be such a comfort to him to have his son with him.

I had a short visit with George H. at my sister. Mrs. Vail's. It is the only time I have seen him since the first week after our arrival. He looks well and strong again & Mr. Hoyt expresses himself as pleased with the progress he makes in his studies. He quite often sees. Meekers. McLean. Webber & Webster

From my Father we hear often. He is well himself but Mrs. Hamlin is far from well. and suffers very much from neuralgia.

Please remember me kindly to the assembled tea-table. and to any of the students who may enquire for us.

I am glad you had such pleasant Christmas entertainments. I expect Mrs. Long does much more than I.
