ГРАДСКИ АРХИВ СОФИЯ

I am very afraid that you would have Cholera or plague in Constantinople this summer to break up the college temporarily - but I see no sign of it yet in the papers. I am beginning to hope you will have nothing more than you have now, which is bad enough. Poor McGahan. I am sorry to see that he is dead - Mr. Schuyler will probably not return, tho' he has not been removed. will not be, as I know from Washington, but he will probably resign.

Remember me to Ranoulloff - Dimitroff I am very glad he came back to Constantinople & to see the pupils at the College. also to your father & mother when you see them.

Most sincerely Yours friend

Geo. Washburn
